# 01 About Polar Star Fish Co.

Polar Star Fish Co. is a leading seafood brokerage headquartered in Denmark. Founded in 2009 by our CEO Claus Raabye, who brings more than 40 years of industry experience, the company was established to create a dedicated one-stop shop for seafood processors and manufacturers worldwide.

With deep industry insight and longstanding expertise, we provide our partners with strong market knowledge and efficiency throughout every stage of the supply chain. We specialize in frozen fish – including blocks, IQF fillets, portions and tails – delivering high-quality seafood solutions to global markets.

Our business is built on the core values of quality, trust, and high service. We believe in honest and reliable business practices that foster long-term commercial relationships. Through exclusive supplier agreements and an extensive global network, we connect the world's finest fishing grounds with your business. As a unified and dedicated team, we work closely with our partners to meet their specific needs and act as a trusted seafood partner worldwide.

## 02 What We Provide

### **Large-Scale Capacity**

We bridge the gap between premier fishing grounds and seafood processors worldwide. By partnering with large capacity suppliers, we offer the substantial volumes and consistent capacity required by large-scale manufacturing operations.

### **From Raw Material to Food Manufacturing**

Our portfolio spans from frozen blocks to precision-cut portions, tailored for industrial processing. We also support customized product solutions, allowing manufacturers to adapt product specifications, and formats to their production requirements. We offer efficient, easy-to-handle bulk formats for industrial processing, including IQF bulk, interleaved, and frozen blocks, ensuring flexibility and efficiency in your production lines.

### **Quality Assurance & Risk Mitigation**

With more than 40 years of industry expertise, we ensure high standards of food safety and product quality. Our experienced team actively manages shipments to secure reliable deliveries and reduce operational risks for our partners.

### **Supply Chain Efficiency & Traceability**

We provide professional management of the entire value chain. From cold storage to final delivery, we ensure efficient logistics, full traceability, and a transparent supply chain you can rely on.

### **Strategic Partnerships & Direct Access**

We collaborate for mutual growth. At Polar Star Fish Co., high service means direct access to our internal stakeholders, ensuring short communication lines, expert guidance, and long-term partnerships with seafood processors worldwide.

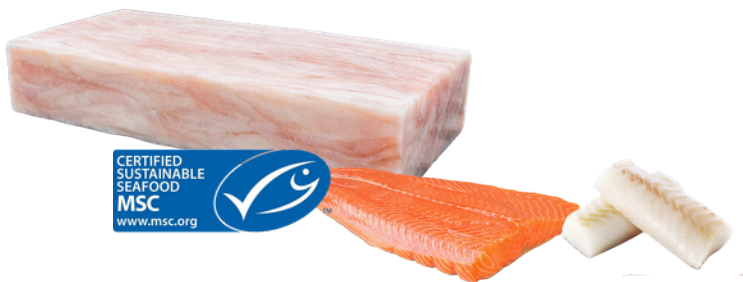

# 03 Frozen Industrial Products

## Responsible & Flexible Solutions

Our frozen fish is primarily sourced from the North Pacific and the Atlantic. Below you will find the key species we specialize in, followed by an overview of our main delivery and packaging formats designed for industrial processing. Our products are MSC certified, and our suppliers comply with the key certifications required in international markets, ensuring responsible sourcing and consistently high quality.

# 04 GREAT COLLABS MAKES GREAT RESULTS

At Polar Star Fish Co., we deliver more than just a product – we deliver reliable raw materials for your production. For seafood processors and manufacturers, our portfolio offers the right balance of consistent quality, stable supply, and operational efficiency. Designed to meet the demands of industrial processing, our seafood ensures uniform texture, flavor, and appearance across every batch. With dependable sourcing and carefully managed logistics, we enable our partners to maintain efficient production and consistent end products in competitive global markets.

For seafood processors and manufacturers, we provide reliable raw materials that support efficient production and consistent end products. Our seafood solutions combine industrial efficiency with high product quality, enabling manufacturers to deliver premium seafood to global markets. Carefully handled and frozen to preserve freshness, our products maintain their natural texture, flavor, and nutritional value. By maintaining a flawless cold chain throughout the supply process, we ensure that the raw material arrives in optimal condition for further processing and large-scale production.
