01 About Polar Star Fish Co.

Polar Star Fish Co., located in Denmark, acts as the official sales office for producers of frozen fish and seafood as well as value-added products. Since its establishment, the company has worked closely with these producers. Founded in 2009 by our CEO Claus Raabye, who brings more than 40 years of industry experience, the company was established to create a dedicated one-stop shop for manufacturers, wholesalers, foodservice operators, and retailers worldwide.

This deep expertise provides our partners with strong market insight and efficiency throughout every stage of the supply chain from productions to delivery, delivering consistent quality across global markets.

Our business is built on the core values of quality, trust, and high service. We believe in honest and reliable business practices that foster long-term commercial relationships. Through exclusive supplier agreements and an extensive global network, we connect the world's finest fishing grounds with your business, acting as your trusted seafood partner worldwide.

02 What We Provide

Global Sourcing & Large-Scale Capacity

We bridge the gap between premier fishing grounds and your market. By partnering with large scale producers, we provide the volumes and consistent capacity required by high-scale retailers, wholesalers, and distributors, ensuring reliable supply of premium frozen fish and seafood worldwide.

One-Stop-Shop: From Raw Material to Private Label

Our portfolio spans from frozen blocks to precision-cut portions. We specialize in market standard and customer tailored portions – for retail and foodservice – and offer value-added, ready-to-use seafood products. In addition, we provide full private label solutions with customized packaging, ingredients, and product composition.

Quality Assurance & Risk Mitigation

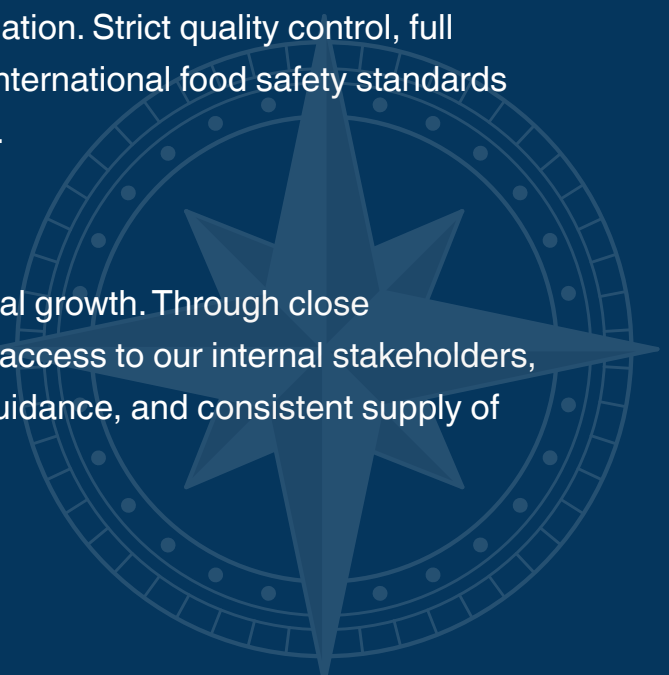

We ensure high food safety standards and consistent product quality. Our experienced team actively manages shipments and production to secure reliable deliveries and reduce operational risks for our partners.

Supply Chain Efficiency & Traceability

We manage your deliveries and ensure reliable transportation with our suppliers, from cold storage to final delivery at your destination. Strict quality control, full traceability, and compliance with freezing and international food safety standards ensure a transparent and efficient supply chain.

Strategic Partnerships & Direct Access

We believe in long-term collaboration and mutual growth. Through close partnerships with leading producers and direct access to our internal stakeholders, we ensure short communication lines, expert guidance, and consistent supply of premium seafood solutions.

03 Our Products

Premium Sourcing & Versatile Solutions

At Polar Star Fish Co., we bring the treasures of the world's most pristine waters directly to your facility. Our portfolio is built on a foundation of premium quality seafood, sourced primarily from the nutrient-rich grounds of the Atlantic, Pacific, and Arctic Oceans. We offer a versatile range of solutions tailored to the diverse needs of the global food industry, providing high-quality frozen blocks for industrial processors and manufacturers, as well as precision-cut portions and ready-to-use products specifically developed for the foodservice and retail sectors.

Quality Excellence & Market Agility

Quality is our cornerstone. We guarantee that every delivery meets the highest food safety standards, backed by expertise and rigorous hygiene protocols. To ensure product integrity, we enforce strict requirements for our logistics partners, maintaining a seamless cold chain that meets the most stringent freezing standards. In a shifting global market, we remain agile. Through close supplier partnerships, we adapt quickly to new trends and market conditions, delivering the latest seafood innovations to ensure your business always stays ahead of the curve.

3.1 Frozen Fish

Responsible & Flexible Solutions

Our frozen fish is primarily sourced from the North Pacific and the Atlantic, and we also offer fish from other parts of the Pacific to ensure a broad and flexible product range. Below you will find the species we specialize in, and on the next page an overview of our main delivery and packaging options. We provide one of the market's widest ranges of standard solutions as well as customized options. We are MSC certified, and our suppliers meet the key certifications required in our markets, ensuring responsible sourcing and consistent high quality.

04 WHAT IT'S ALL ABOUT IN THE END

At Polar Star Fish Co., we deliver more than just a product; we deliver a premium dining experience directly to the plate. For foodservice operators and catering professionals, our ready-to-use range offers the perfect balance of consistency and speed. Designed to withstand the fast-paced environment of a professional kitchen, our seafood ensures that every serving maintains its texture, flavor, and visual appeal. We empower chefs to deliver top-tier, high-margin meals with minimal preparation, ensuring excellence in every bite.

For the retail sector, we provide the ultimate "at-home" cooking solution. Our products bridge the gap between industrial efficiency and culinary excellence, allowing consumers to enjoy restaurant-quality seafood in their own kitchens. Easy to prepare and consistently delicious, these products are perfect for modern families seeking healthy, high-quality meals without the complexity of traditional cooking. By maintaining a flawless cold chain, we ensure that the end result on the consumer's plate is as fresh and flavorful as the day it was caught.
